# MOHD IRWAN BIN FAUZI

CONTROL SYSTEM SPECIALIST

## PERSONAL PROFILE

Extremely motivated to constantly develop my skills and grow professionally. Experienced Control System Specialist with a demonstrated history of working in the industrial automation industry. Skilled in AutoCAD, Engineering, PLC Allen Bradley, Siemens, Schneider, Tridium, Project Engineering, and Electrical Engineering.

## CONTACT

C202 Apartment Flora,
Tmn Impian Ehsan,
43300 Seri Kembangan,
Selangor.

mohdirwanfauzi@gmail.com

+6-012-3764060

## EDUCATION

Bachelor of Electrical Engineering
Universiti Teknikal Melaka
2008

## SKILLS

- Exceptional communication and networking skills
- Successful working in a team environment, as well as independently
- The ability to work under pressure and multi-task
- The ability to follow instructions and deliver quality results
- Knowledge of Chiller Plant room Automation, Building Management System and Energy Optimisation.

## CAREER HISTORY

**Petersime South East Asia  Sdn. Bhd.**
*Project Engineer, Post Sales HVAC (Electrical & PLC),*
*August 2024-present*

1. Responsible for the electrical design and technical engineering of complete hatchery projects.
2. Specify and calculate technical solutions for HVAC with focus on the electrical regulation and convert this into an optimal working PLC program.
3. Full responsibility for the project, from A to Z.

- Take care of the HVAC project, in close collaboration with Pre-Sales departments and fellow Project Engineers.
- Engineer the technical HVAC up to full turnkey projects. This includes heating and cooling system, electrical distribution, routing of all piping & air ducts and all required installation materials.
- Make the necessary calculations of air volumes, airduct and pipe diameters, size and configure the correct pumps, sizing of electrical cables etc. Based on these calculations will you make the selection of all the various components for the assigned project.
- Design the full electrical regulation for correct operations of the HVAC. Based on the electrical regulation for the hatchery you can program the PLC (TM241/TM262 Schneider SoMachine).
- Responsible for the follow-up and final check of the engineering and execution drawings, created with your team of draftsmen.
- Using the BIM (Autodesk Revit) design program, you export component lists via PLM (PTC- Windchill).

- Assist in the procurement process of the (HVAC) components in collaboration with the purchasing assistant.
- Assist on testing at ESB supplier and field support during commissioning if necessary.

## LANGUAGES

English & Bahasa Malaysia: Excellent (speaking, reading & writing).

## PROFESSIONAL SKILLS

- PLC Languages & Software (Allen Bradley, Siemens, Koyo, Mitsubishi, Schneider and etc.)
- BMS & SCADA Software. (WinCC, Topkapi, DesigoCC, Schneider, Tridium)
- AutoCad, Revit.
- Microsoft Project, Word, Power Point

## PROFESSIONAL CERTIFICATION/ MEMBERSHIP

- Offshore PETRONAS Safety Passport
- Oil and Gas Safety Passport
- Member of Board of Engineer Malaysia (BEM)
- EcoStruxure Building: SmartX Advanced Engineering 3.x

## PREFERENCES

| | |
|---|---|
| Type of Employment | : Full time |
| Willingness to work long hours | : Yes |
| Willingness to travel | : Yes |
| Availability | : 1 month notice |
| Expected Salary | : 9000 |

## CAREER HISTORY

**Daikin Malaysia Sdn. Bhd.**

*Control System Specialist, Oct 2018- August 2024*

1. Establish A Department/Team To Sustain Current & Future Job.

a) Set Mission, Goals & Roles and Responsibilities
b) Source For Vendor/Supplier To Support Company Needs
c) Work Together With ACMV Project/Service Team - In-House BMS/EMS Team
d) Energy Performance & Optimization

- Monitoring Energy Consumption & Usage Patterns
- Identify Area Where Energy Is Wasted Or Used Inefficiently
- Designing & Implementing Plans For Optimization Energy Use

2. In-House Specialist (BMS & EMS)

a) Project

- Management (Design, Planning, Scheduling & Execution)
- Engineering (Documentation, Drawing, Programming & Graphical)
- Site (Coordination, Installation & Testing And Commissioning)

b) Technical Sales (Sales Support)

- Budgetary Costing & Estimation
- Design & Build As Per Client Requirement

c) Service Support

- Responding To Client Queries (Timely & Accurate)
- Identifying & Help Client Needs
- Analyzing & Reporting Site Issues
- Preparation of control deliverables control system configuration, IO List, alarm list, interlock list, Interlock Block Diagram, and other control sequence document.

**DP Controls Sdn. Bhd.**

*Assistant Manager, Oct 2008- Sept 2018*

- Monitor and supervise on project progress and implementation.
- Monitor engineering progress against budget and forecast schedule.
- Testing and commissioning the end product or system.
- Design instrumentation and electrical hook up and installation drawing.
- Doing Plc and touch screen programming.
- Purchasing of materials for projects use.
- Provides supervision, technical direction and assistance to Project Engineers

**Control EZ Technology Sdn Bhd**

*Project Engineer, May 2008- Sept 2008*

- Monitor and supervise on project progress and implementation.
- Testing and commissioning the end product or system.
- Design system layout for control system.
- Doing Plc and touch screen programming.
- Purchasing of materials for projects use.

# PROJECT EXPERIENCE

### PETRONAS, RAPID Pengerang Project Package 5, 6A & 14.

- Doing PLC program and design wiring diagram for HVAC control system.
- PLC Siemens & Allen Bradley Programming
- Pre-Commissioning check
- Testing and Commissioning.

### SHELL Malikai Platform HVAC System.

- Design of PLC Control Panel utilizing Allen Bradley Controls Logix PLC.
- Programming of Allen Bradley PLC & Panel View Touch screen
- Redundancy System.
- Factory Acceptance Test of HVAC system at onshore.

### PETRONAS Semarang Platform HVAC System for Living Quarters.

- Design of PLC Control Panel utilizing Allen Bradley Controls Logix PLC.
- Programming of Allen Bradley PLC & Panel View Touch screen
- Factory Acceptance Test of HVAC system at onshore.
- Testing And Commissioning of HVAC system at offshore.

### Carigali HESS Cakerawala Platform HVAC System for Living Quarters.

- Design of PLC Control Panel utilizing Allen Bradley Controls Logix PLC.
- Programming of Allen Bradley PLC & Panel View Touch screen
- Testing and Commissioning of HVAC system at offshore (JDA Malaysia-Thailand).

### Turkmenistan Block 1 Development Project (HVAC).

- Koyo PLC programming with View Jet C-More touchscreen.
- Testing and Commissioning of HVAC system at Turkmenistan.
- Client Petronas Carigali (Turkmenistan) Sdn. Bhd.

### ExxonMobile Kipper Tuna Turrum Project Marlin-B Platform HVAC System.

- Designing of PLC Control Panel utilizing Allen Bradley SLC 500 PLC.
- Programming of Allen Bradley Panel View Touch screen
- Testing and Commissioning of HVAC system at onshore (Mc Dermott, Batam) and offshore (Australia).

### Yetagun-C Platform HVAC System for Petronas Carigali (Myanmar) Sdn. Bhd.

- Control of Local Equipment Room, Local Electrical Room and MER HVAC system
- Designing of PLC Control Panel utilizing Allen Bradley SLC 500 PLC.
- Programming of Allen Bradley Panel View Touch screen
- Testing and Commissioning of HVAC system Onshore (TNS, Bangkok) and Offshore (Andaman Sea).

### Control system for Operation Theater Room Air Conditioning System at Balakong & Bukit Rimau Columbia Asia Hospital.

- Consists of Main panel and 3 remote panel to control HVAC in various location.
- Koyo PLC & Easyview Panel View touchscreen programming
- Designing Control Panel, programming of PLCs and touchscreen.
- Testing and Commissioning on the spot.

### HSBC TRX Building

- Develop & Execute Chiller Management System with Energy Optimization
- Using Siemens DesigoCC Workstation Software & Apogee Siemens.
- Intergrated with Azbil BMS.
- Testing and Commissioning.

### Metropolis Vinhomes Project

- Develop & Execute Chiller Management System with Energy Optimization
- Using Siemens DesigoCC Workstation Software & Apogee Siemens.
- Consist of 2 plant room with 5 chillers & 4 chillers.
- Testing and Commissioning.

### Daikin Electronic Malaysia, Shah Alam

- Develop & Execute BMS & CMS with Energy Optimization
- Using Siemens DesigoCC Workstation Software & Apogee Siemens.
- Add On IPM Daikin with Artificial intelligence.
- Testing and Commissioning.

### Bank Negara Recovery Centre, Shah Alam

- Develop & Execute Chiller Management System with Energy Optimization
- Using IPM Workstation Software & Hardware.
- IPM Daikin with Artificial intelligence.
- Testing and Commissioning.

### Plaza Senayan, Jakarta.

- Develop & Execute BMS & CMS with Energy Optimization
- Using Siemens DesigoCC Workstation Software & Apogee Siemens.
- Testing and Commissioning.

### Hospital Jasin, Melaka

- Develop & Execute Chiller Management System with Energy Optimization
- Using Schneider Ecostruxture Hardware.
- Add on IPM Daikin with Artificial intelligence.
- Testing and Commissioning.

### Hatchery Great Wall, Taiwan

- Electrical design and technical engineering of complete hatchery projects. (HVAC System)
- PLC & HMI Programming using TM241/TM262 Schneider SoMachine.

### Leong Hup Hatchery, Bidor.

- PLC & HMI Programming using TM241/TM262 Schneider SoMachine.

### Pollo Coa Hatchery, Colombia

- Electrical design and technical engineering of complete hatchery projects. (HVAC System)
- PLC & HMI Programming using TM241/TM262 Schneider SoMachine.
