ABOUT ME

Eager to use theoretical concepts in real-world projects and keep improving technical skills. A quick learner with strong problem-solving skills, adaptability, and a keen interest in web development and software applications. Committed to making positive contributions to team projects and building a successful career in the IT industry.

INTERNSHIP

Kaashiv InfoTech - Intern

May 2024 - July 2024

- Gained practical exposure in real-time development environments.
- Worked on projects and improved hands-on skills in programming language.
- Attended sessions on emerging technologies and their applications

PROJECTS

Stock Manager Application

- The Stock Manager App manages IT lab equipment by displaying availability, handling complaints, and updating item stock.
- This makes lab management easier, more transparent, and efficient.

Multi Face Recognition System (Ongoing)

- To develop a real-time system using YOLO that can accurately detect and track multiple faces simultaneously in images or video streams.
- To integrate FaceNet for generating unique facial embeddings, enabling precise recognition of individuals and the ability to differentiate between identical twins.
