KARTHICK VEERAKUMAR

Project Manager- Survey and Mapping

Objective

I am career oriented skillful & conscientious seeking for a suitable position enabling to perform meaningfully for optimum productivity diligently I achieved the assignment with self-motivation possessing great potential and stand efficacious high work pressure.

Profile Summary

- Survey Professional with 8.5 years of experience
- Handling Survey Team for project execution
- Experienced in Total station, Digital Level and DGPS Survey with Processing knowledge
- Experienced in end to end Project handling, Technical writing and rely on customer satisfaction
- Proactive planner, Hard worker effective communicator with strong analytical, problem solving and organizational abilities

Area of Expertise

- Advanced Total Station (Robotic)
- Digital Level
- Data Processing of Static and Kinematic data(Sokkia, Leica, Trimble, Hi- Target, CHC- NAV)
- Global Mapper, Autoplotter, AutoCAD for generation DTM, Cross section, Volume, Contour)
- Image Pre- Processing

Personal Details

Nationality	: Indian
Marital Status	: Married
Sex	: Male
Date of Birth	: 14th January, 1994
Language Known	: English, Tamil & Basic Hindi

Education History

JUN 2008 - APR 2009	SSLC - 62.2% Sethu Bhaskara Matric Hr. Sec. School
JUN 2008 - APR 2009	HSC - 66.16% Sethu Bhaskara Matric Hr. Sec. School
JUL 2011- NOV 2015	B.E - Civil Engineering- 62% Gojan School of Business and Technology

Work Experience

Electro Optics Pvt Ltd Aug 2016- Mar 2018

Assistant Engineer

- Travel across India for onsite demonstration and training purposes
- Listen, understand and convey customer requirements
- Maintain accurate records of target accounts, opportunities, quotes, projects, contacts and correspondence.
- Demonstrate the basic and advanced survey equipment like Robotic Total stations, Digital Level, GNSS receiver by preparing and presenting onsite with the necessary backups
- Help to resolve customer issues or difficulties in a manner that is consistent with the company mission, values, and financial objectives

Electro Optics Pvt Ltd Apr 2018 - Nov 2020

Technical Support Engineer- Survey

- Troubleshoot the equipment and software via calls and teams meet for quick online support after sales
- Identify and provide reliable solutions for all technical issues to assure complete customer satisfaction through all stages of the quote process.
- Establish and maintain strong relationships with partners and customers.
- Work in the special projects team to give the solution on field with our equipment
- Assist with overall workload within Applications to meet customer needs and department schedules
- Ensure clients receive proper technical support and obtain the necessary certificate after training/ Demonstration
- Equipment Calibration and onsite service support for Total Stations, Auto Levels and GNSS Receivers
- Static and Kinematic data processing and ensure the quality and reports to be analyzed while performing the survey.
- Generation of DSM, DTM, contour, volume, cross section using Auto Plotter and Global Mapper software and Basic Knowledge in Pix4D software

LTIMindtree Ltd

October 2023- November 2025-LTIMindtree Payroll)

April 2022- October 2023 (Randstad India Pvt Ltd- Payroll)

May 2021- March 2022 (Teamlease Services Ltd- Payroll)

Project Coordinator- Survey and Mapping

HIGH SPEED RAIL- C3, C4 & C5 - 135+ 238+ 8 Kms (L&T Heavy Civil Infrastructure and Transportations IC)

- Managing Survey team and coordinating with execution team for efficient completion of work
- Assuring that the survey protocols are followed to ensure data quality and timeliness
- Preparation of daily progress report, RFI , Survey Documents, SOW before execution
- Coordination between office and field work and maintaining contract administration
- Establishing 5Km Control points by Survey of India points using GNSS Receiver
- Traversing for 200m pillar points for each 5km and close the loop using Total Station
- Processing of static data and getting validated approval from the client
- QA & QC for LiDAR data, Drone Images and done pre-processing with Pix4D software

Aerial LiDAR Power Grid- 390Kms (L&T Power Transmission and Distribution)

- **Establishing 5Kms GNSS Points for Airborne LiDAR survey,**
- **Topographic Survey and traversing done with DGPS and Total Station to cross check the LiDAR data matching with ground points**
- **Client Interaction for progress and Permission for flying Helicopters for data acquisition is obtained from AirForce Station**
- **Submission of Point Cloud data and Raw data of GNSS and creating the validation report**

Jal Jeevan Mission -RWS using MLS and Backpack LiDAR - (L&T Water & Effluent Treatment)

- **Managing both the GNSS, LiDAR and Drone team and get the necessary permissions by coordinating with the Client to avoid the challenges during execution.**
- **Establishing the MCP points for the study survey area and GCP to be established for the RTK Survey**
- **Preplanning for the survey to be done by MLS on the daily basis**
- **Preparation of daily progress report, RFI , Survey Documents**
- **GNSS Data Processing and Submitting the report**
- **Regularly communicate with the client to provide updates and to discuss timely completion of the assignment**
- **Client Relations and Vendor Management.**
- **Multiple project covered area of total 5000 kms**

Project Manager- Survey and Mapping

AERIAL SURVEY LSM -10025 Sq.Kms (Karnataka Survey Settlement and Land Records- SVAMITVA Projects)

- **Establishing the MCP points for the study survey area and GCP to be established for the RTK Survey**
- **Client Relations and following up with the PWD, Fire, Health and Police for getiing necessary permissions for Airbourne flying**
- **GNSS Data Processing**
- **Flying Preplanning**
- **Preparation of daily progress report**
- **Regularly communicate with the client to provide updates and to discuss timely completion of the assignment**
- **Client Relations and Vendor contracts and management.**
- **Camera Sensor and GNSS Troubleshooting**
- **QA/QC for the GNSS data**
- **Responsibility for submission and data delivery**

SURVEY OF INDIA- NAKSHA -1700 Sq.Kms (NAtional geospatial Knowledge-based land Survey of urban HAbitations)

Overall management across South India, with key responsibilities including:

- **GNSS, CORS Network setup, data processing, topo digitization, and image preprocessing.**
- **Client coordination via online/offline meetings, progress reporting, weekly workflow guidance.**
- **Coordinating for training on Ortho-Rectified Image processing (oblique camera), 3D city mesh modeling, DEM/DTM generation.**
- **Permissions coordination with MoCA, DGCA, and Air Force for flights; instruct drone pilots on flying guidelines.**
- **Manage 15+ vendors across multiple locations and concurrent workstreams to ensure on-time project completion.**
- **Prepared cost estimations for tender bids with multiple pricing options and finalized bid submissions.**
- **Oversaw site expense budgeting, controlled costs, and delivered projects within allocated time and budget.**
