PROFESSIONAL SUMMARY

Resourceful Research Biologist with a master's degree in molecular biology and six years of experience in the field of molecular medicine offering expertise in cell -based assays, molecular and cellular biology, and histology procedures. Highly organized, proficient at developing and performing various immunoassays, ELISAs, sample preparation and protein extraction assays. Extremely knowledgeable in overall laboratory function and maintenance, capable of performing independent tasks as well as working as a highly functional team member.

SKILLS

- Research design
- Research report
- Conducting assays
- Sample preparation
- Protein isolation
- Cytoplasmic protein extraction
- Data collection and analysis
- Experiment development
- Published author
- Conflict resolution

Computer skills:

- Proficient using MS Word, Excel and PowerPoint
- Highly skillful at utilization of various commercially available software regarding information processing, content creation, safety, problem solving, communication
- Experienced with specialized software for ELISA analysis, cell-cycle and apoptosis analysis
- DNA/RNA isolation
- PCR/RT-PCR/qPCR
- Highly experienced working with cell cultures in sterile environment; established cell lines and primary cultures
- Light microscopy (UV fluorescence, phase contrast)
- Deep freeze conservation of recombinant bacteria and human cell cultures (CO2 freezers and liquid nitrogen)
- Western Blot assay; SDS-PAGE and native-PAGE electrophoresis
- ELISA assay
- Spectrophotometry
- Mass spectrometry (MALDI TOF/TOF)
- UV and VIS spectrometry
- Immunoprecipitation, co-immunoprecipitation assay
- Immunocytochemistry and immunohistochemistry assay
- HPLC spotter
- Bacterial cultures, recombinant protein expression
- His-tag recombinant protein isolation

WORKHISTORY

Molecular biologist, 10/2025, current employment position
University Hospital Centre Zagreb, Zagreb, Croatia

- DNA/RNA isolation from FFPE tissue samples, cytology samples and liquid biopsies
- PCR/RT-PCR diagnostics

Histology Analyst, 09/2023 to 07/2025
Universitair Medisch Centrum Utrecht - Utrecht, Netherlands

- Automated tissue processing (tissue transfer and liquid transfer)
- Embedding of tissue samples into paraffin blocks
- Microtome cutting of paraffin blocks and mounting of sections onto microscopy slides
- Automated slide staining
- Special staining procedures (automated and manual)
- Digital Pathology Slide Scanning
- Frozen sections
- Enzyme histochemistry

Histology Analyst, 01/2023 to 07/2023
Reinier Haga Medisch Diagnostisch Centrum - Delft, Netherlands

- Automated tissue processing (tissue transfer and liquid transfer)
- Embedding of tissue samples into paraffin blocks
- Microtome cutting of paraffin blocks and mounting of sections onto microscopy slides
- Automated slide staining
- Special staining procedures (automated and manual)

Assistant, 01/2021 to 03/2021
Varazdin General Hospital – Varazdin, Croatia

- Temporary position as an assistant at pathology department due to Covid-19 pandemics situation
- Assisting with autopsies and cadaver handling

Sales representative, 02/2015 to 08/2015
V.I.A.-lab d.o.o. – Varazdin, Croatia

- Investigated and resolved customer inquiries and complaints in a timely and empathetic manner
- Built long-term customer relationships and advised customers on purchases and promotions
- Developed new business by networking with valuable customers
- Routinely answered customer questions regarding merchandise and pricing
- Learned, referenced and applied product knowledge information
- Contacted customer to follow up on purchases, suggest new merchandise and inform them about promotions and upcoming events
- Answered product questions with up-to-date knowledge of sales and store promotions
- Translation, technical and graphic editing of catalogs and other promotional materials
- Presentations, expert advice and practical education for customers

Research assistant, 12/2004 to 11/2010
"Rudjer Boskovic" Institute – Zagreb, Croatia

- Worked with principal investigators to coordinate qualitative research in the field of molecular medicine
- Collected, prepared and tested wide range of biological samples
- Prepared materials for reports, presentations, and submission to peer-reviewed journal publications
- Performed statistical, qualitative and quantitative analysis
- Planned, modified, and executed research techniques, procedures and tests
- Interpreted research findings and summarized data into reports
- Worked with several teams on cell cycle and apoptosis research
- Ordered laboratory equipment and supplies
- Kept accurate databases of specimens collected and stored in repository
- Designed and optimized assays

Scientific activities:

- Cell signaling disorder research in lung carcinoma
- Anti-tumor drug mechanism of action research under in vitro conditions (cell-cycle regulation, apoptosis)
- Dupuytren contracture research
- Tissue proteomics
- Recombinant protein transduction research in acute lymphocytic leukemia and chronic myeloid leukemia cell models
- Cell-cycle regulation disorder and cell death research on colorectal carcinoma cell lines
- Anti-tumor drug effect assessment on tongue squamous carcinoma and cervical adenocarcinoma cell lines in combination with reparative gene transduction

Supervisor for hazardous materials, 10/2003 to 08/2004
Partner-Ing. d.o.o. – Varazdin, Croatia

- Supervision of storage and release in transport of hazardous materials
- Maintenance and release of transport documents for transport of hazardous materials
- Environmental risk assessment documentation development and records maintenance
- Monitoring legal regulations in the transport and marketing of dangerous materials

EDUCATION

Master of Science: Molecular biology, 2003

Faculty of Science, University of Zagreb - Zagreb, Croatia

I graduated 24.02.2003. with honors defending the thesis titled "Assessment of epirubicin-induced DNA damage in CBA mice leukocytes" made in Mutagenesis Unit of the Institute for Medical Research and Occupational Health in Zagreb.
