Professional Summary

BCA Graduate with strong technical skills in **Python, C/C++, and web development** using **ASP.NET, HTML, CSS, and JavaScript.** Experienced in **AI/ML projects** and effective **team collaboration** through internships and academic work. Looking for an **entry-level Software Developer** position to apply knowledge and grow in a dynamic environment.

Technical Skills

- Programming Languages**: Python** (Core), C, C++, Java (Basics)
- Web Technologies: ASP.NET, **HTML5, CSS3**, JavaScript, PHP
- Databases: **MySQL**, MS SQL Server
- Frameworks & Tools: Entity Framework, Blazor, Bootstrap, **Visual Studio**
- Productivity Tools: **Microsoft Word**, Excel, PowerPoint

Projects

Project Title: Stroke Prediction and Its Types Using AI & ML
Description: Developed a machine learning model to predict the likelihood and type of stroke in patients with an accuracy of 98.00%, utilizing artificial intelligence and data-driven approaches for improved healthcare analysis.
Role: Contributed to designing and building the ML model, focusing on data preprocessing, algorithm selection, and model optimization.

Education

- Bachelor of Computer Applications (BCA) — Vidya Vikas First Grade College (VVFGC), Mysore
  Graduation: 2025 | CGPA: 7.45
- Pre-University Course (PUC) – Commerce (BASC) — St. Philomena's PU College, Mysore
  Year: 2022 | Percentage: 59%
- SSLC (ICSE Board) — Flos Carmeli Convent ICSE School Year: 2020 | Percentage: 62%

Certifications

AWS Cloud Development Kit – Amazon Web Services (2025)
Generative AI For Leaders: The #1 surging skill – **Udemy**
International Level Student Workshop – **2k24** on Data Science using **Python.**

Languages

- English (Fluent)
- Hindi (Fluent)
- Kannada (Proficient)
- Urdu (Proficient)
